LIFE'S END COMES TO BEN H. BATES.

One of County's Best Citizens and
Successful Business Man—
Lod Life of Zealous Christian.

Tarfork, Ky., Dec. 12.—(Special)—
Ben H. Bates, one of the best known and most successful business men of the county, died last Wednesday at his home at McQuady. He had been in failing health for sometime, but was in a critical condition just a few days before death. He was at Cloverport only a short while and during his relatives there of improvement in his health. His last illness came upon him very unexpectedly and all that skill and attention could do was unavailable.

Benjamin Hincher Bates was born near Cloverport on the Hardinsburg turnpike, on December 15, 1832, and lived in Breckenridge county all his life. He was the third and youngest son of John D. and Eliza Bates. About 1856, he was married to Miss Susan Taul, who died a few years ago. He is survived by one son, J. B. Bates, two brothers, William, of Fordsville, and Samuel, of this county, and two brothers, T. H. and J. T. Bates.

At the time of his death, Mr. Bates was engaged with his son in the mercantile and milling business at McQuady. In earlier years he engaged extensively in farming and the tobacco business. He was very successful as a business man, accumulating quite a large estate.

Mr. Bates lived a Christian life worthy of emulation. He joined the Baptist church in early life, but later united with the Christian church, and was a zealous member and elder in Tarfork Christian church.

The funeral was held Thursday, the interment being at the Tarfork cemetery.

Dr. A. M. Hardaway will be at Glendale next week beginning December 18, prepared to do all modern dentistry.

Court Circuit Can be Held Here.

Frankfort, Ky., Dec. 7.—The court of appeals today sustained the act of the last Legislature providing for the holding of Circuit Court in two towns in the same county, where the town not the county seat is the larger. The case came up on appeal from Fulton county. Hickman is the county seat of Fulton, but is a smaller town than Fulton and is seventeen miles distant from it. Johnson, a citizen of Hickman, brought suit to test the validity of the act of the Legislature. The court here affirms the lower court and holds the act is constitutional.

The above ruling of the court of appeals has caused considerable concern here and a number of citizens have been heard to remark that they intend to have the circuit court sit at any time in the future they may have cases in that court.

Young People's Societies

Elect Officers For 1906.

At their monthly business meetings last week, the Baptist Young Peoples' Union and the Epworth League elected officers for the ensuing year. The new officers or the B. Y. P. U. were installed when elected. The officers elect of the League will be installed at the Methodist church on Sunday evening.

Both organizations have approximately seventy-five members and are in a flourishing condition.

Sunday School Convention.

The features of a district Sunday school convention at the Methodist church last Wednesday evening were the election of officers and an address on Sunday school work by Rev. T. C. Gebauer, State Seld warden of the State Sunday school association.

Rev. Gebauer illustrated his address with stereopticon views of scenes in the life of Christ.

The following officers were elected: R. L. Oelze, president; Jno. V. G. Babbage and Mrs. C. E. Lightfoot, superintendents of the home, primary and houses-nurses visitation departments, respectively.

One of Worst Losses on Ohio Occurs Below City.

One of the worst losses on the Ohio river occurred at the bend above Cannonsville Saturday evening about 7 o'clock when the Raymond Horner and the Harry Brown and their tow were caught in a gale and coal barges worth more than \$180,000 were lost. The Horner lost five barges of coal and the Brown twenty-seven barges. No lives were lost.

Both boats were caught in a hard wind, which sprung up suddenly, and attempted to leave. The Horner succeeded with a small loss, but the Brown lost control of her feet, every barge breaking loose, and sinking on filling with water from the waves.

The fleets were owned by the Monongahela River Consolidated Coal and Coke company.

AFTER MAIN LINE FOR THEIR TOWN

Hardinsburg Citizens Want Spur

Taken Up—Contest Withdrawn
—Slater Dismissed.

Hardinsburg, Ky., Dec. 12.—(Special)—Now that building of the proposed railroad from Madisonville to Fordsville seems assured, the citizens of this place are anxious to have the Henderson Route take up the spur, and run the main line through the town. It is believed that the railroad company and the town could agree upon a route with little or no difficulty. The railroad should make a proposition, which, if reasonable, would be readily accepted by the citizens, who seem to realize that this is the time to get the main line through here.

In the contest cases, it has been agreed that the suit of W. S. Bell against W. F. Hook shall be dismissed at the February term of circuit court. The reason is that the subscription to the contest fund is not sufficient to prosecute the suit, and Mr. Bell does not feel that he ought to pay the great cost of such a proceeding himself.

Cliff Slater, who killed Wm. Beck at Rosetta, a few weeks ago, was dismissed by Judge Miller, at the examining trial Thursday.

Mrs. Margaret May's residence on Main street was broken into last Saturday night during her absence at West Point. A few articles of clothing were taken out of a trunk, which the thief kept open when he evidently thought no one was up. Nothing besides the trunk was molested. It is thought that an entrance was effected through the back door. There is no clue to the burglar.

The Sunday School of the Baptist church will give a recital on the evening of December 15, the proceeds of which will be used in painting the interior of the church.

Among those who are invited to take part in the program are Misses Helen Hodges, Winnie and Calista of Covington, and Ella Robertson, of Weston. They are all talented and accomplished musicians and are capable of pleasing the most critical audiences. The others who will assist in the entertainment will be announced in next week's issue.

The Sunday school of the M. E. church, South, will give a Christmas service at the church on Sunday, December 24. An invitation to attend is extended to all.

Joe Munday Charms Large Audiences With Lectures

Joe Munday, of Louisville, former actor and playwright, minister of education, minister of the gospel, and lecturer at the Methodist church Sunday afternoon under the auspices of the Barossa Bible class, to a large audience of men, on the subject of rescue work among men and women, in which he is actively and independently engaged. Dr. Munday's lecture, though long, held the rapt attention of his hearers throughout, the ease and delight with which he went from pathos to humor in relating in his inimitable way incidents and stories to illustrate his strong points, thoroughly charming and captivating his audience. Most favorable comments on the lecture have been heard, many saying they consider him superior to Sam Jones—in language most assuredly. The lecture was unquestionably the most interesting and most forcible of its kind ever delivered here.

Monday night Dr. Munday lectured at the Baptist church to a crowded house, taking for his subject, "There is a Baby at Home," and dealing with the important duties of children and parents toward each other. For two hours he delightedly entertained his large audience.

Both of Dr. Munday's lectures were in reality powerful sermons and certainly as beneficial as such.

WEAK LUNGS?

Do you Fear Consumption?

When we take into consideration the fact that one out of every seven in this climate die of consumption, is it any wonder that it is feared by the people of Cloverport who have weak lungs and chronic colds and coughs?

A famous London physician has for years urged his patients, when the slightest tendency to consumption appeared, to take the best cod liver preparation they could find, and physicians everywhere have recognized that the cod liver contains curative values for coughs, colds, bronchitis, consumption and all other diseases unrelated to medicine, but unfortunately, few could take and derive any benefit from old-fashioned cod liver oil and emulsions on account of the indigestible grease which they contain.

A member of the firm of Short & Haynes, our local druggists, says: "We want every person in Cloverport to know the value of our new cod liver preparation, Vinol. It actually contains in a concentrated form all of the strengthening body-building elements of cod liver oil actually taken from fresh cod's livers, without a drop of grease to upset the stomach and retard its work."

"Therefore, where old-fashioned cod liver oil or emulsions would do good, Vinol will do far more good. We guarantee Vinol will improve the appetite, strengthen digestion, make rich, red blood, create strength, cure chronic coughs and colds and strengthen weak lungs. If Vinol fails to give satisfaction, we return your money without question." Short & Haynes, Druggists.

Mr. and Mrs. D. Stewart Miller, Jr., came up from Owensboro yesterday to reside here. Mr. Miller is general manager of the Miller Brick and Tile Company, which has purchased the Patton brick plant and will overhaul it this winter, beginning operations next spring.

"Squirrel whiskey" is the name of a new whiskey they use in elections up in New York. They put it out on the night before election and it has the effect of making all voters who use it climb trees on election day and loose their votes. It is suggested that some of this brand of whisky was used by the Democrats on Republican floaters in the recent election in this county.

We are glad to learn that Oscar L. Black, of Addison, has secured a position with the Belknap Hardware & Manufacturing Co., of Louisville. This firm could not have secured the services of a better young man. He is sober, reliable and briful of energy. We have watched the conduct of this young man for years, we have watched his energy, and we have said to ourselves, "There is a young man who will make his mark in the business world." And now that he has got with so good a firm as the Belknap company he will have a chance to show what is in him. We believe he will do it. We congratulate both the firm and the young man and hope their business relations will be pleasant and profitable.

HARPER'S WEEKLY, in commenting on the life insurance situation says: "We are amazed to learn upon good authority that there have developed two phases of the insurance situation which seriously reflect upon the hard sense of a good many presumably intelligent Americans. (1) Hundreds, even thousands, are permitting their policies to lapse. This is so stupid as to be, from the standpoint of pure self-interest, almost criminal. There is no question and has been and can be no question of the solvency of the companies. Enough has developed to prove beyond the shadow of doubt that the total of moneys wasted and not earned that might have been earned is a bagatelle in proportion to the enormous assets. Every dollar of insurance outstanding is good as gold whether a new policy ever be written or not. It is the uttermost folly, therefore, for any one to sacrifice the slightest portion of what he has paid in. To continue the payment of premiums and

demand restitution and reform is the only sane policy. (2) Thousands of policy-holders are sending their proxies to Thomas W. Lawson. They would better send them to the devil himself. If the wit of man were exercised to find a way to wreck, if possible, a solvent concern, none more effective than this could be devised. No right-thinking person can condone proven offences, but such a jump as this would be from the frying-pan into the fire, but into the bottomless pit. That same beings to any number likely to prove adequate to his purpose should intrust their property and the future sustenance of their beneficiaries to a professionally unscrupulous speculator seems incredible. And yet the danger is said to be real and imminent. We hope and believe it is magnified by unwarranted boastfulness on the one hand and by distorted imagination on the other. But the interests involved are so vast and so widespread that no patriotic citizen should spare any possible effort to save credulous thousands from the inevitable consequences of their own rash action. If it be possibly true that insurance officials have become so discredited as to be impotent in withstanding the force of a wave of insanity, it is high time for the formation of a National Vigilance Committee in the interest of the whole people."

RATE AGITATION PERILOUS.

"There is a grave danger that if action is not taken by Congress to settle this transportation question it may become a political issue. This subject is one of the greatest business problems that our country has ever been called upon to determine, and it should not be permitted to become a political issue, to be determined by partisan interest instead of intelligent reason."

These words of warning were spoken by Mr. Nelson W. McLeod, president of the Federal Rate Regulation, in the course of an address on governmental rate making delivered at a meeting of the Yellow Pins, a prominent lumbermen's club of St. Louis, Mo., Monday evening, Nov. 20. Mr. McLeod showed that the rebate and preference evils, being related to the administration of the rate rather than the fixing of it, have no connection whatever with the source from which the rate emanates. He contended that however sincere the advocates of government rate making might be in their intent that the power to be delegated is not to be used to name the rates in general, but that it is to be confined to incidental cases based on formal complaint; the actual practice would necessarily be exactly contrary to that assertion of intent, and that the conflicting claims of contending interests could only be satisfied through a political commission, by the establishment of a distance tariff. In concluding, Mr. McLeod said:

"If those who advocate placing in the hands of a political body the power to name rates are successful in their efforts and are in error as to the result in practice, commercial disaster may result, and while it may cause some men of wealth to become poor, capital will not be compelled to make personal sacrifice. Commercial disaster, however, to labor and the man of limited means is a calamity touching the home life in sacrifice and possible want. On the other hand if those of us who oppose placing the power to name rates in a political body, are successful in our opposition but are erroneous as to what would occur in the event of a political party, the commercial disaster would not result as the conservative policy would safeguard a continued prosperous condition. It is true a complainant might have to go before a court to obtain adequate remedy, but to cure this slight delay does not, in my opinion, justify placing in jeopardy the material welfare of our country, by engaging in untried experiments."

Sick Blood

Feed pale girls on Scott's Emulsion.

We do not need to give all the reasons why Scott's Emulsion restores the strength and flesh and color of good health to those who suffer from sick blood.

The fact that it is the best preparation of Cod Liver Oil, rich in nutrition, full of healthy stimulation is a suggestion as to why it does what it does.

Scott's Emulsion presents Cod Liver Oil at its best, fullest in strength, least in taste.

Young women in their "teens" are permanently cured of the peculiar disease of the blood which shows itself in paleness, weakness and nervousness, by regular treatment with Scott's Emulsion.

It is a true blood food and is naturally adapted to the cure of the blood sickness from which so many young women suffer.

Hancock Solid For Blackburn.

(Hancock Clarion.)

The Clarion has come to the investigation that Hancock county, and it is now ready to announce, once for all, that the county is overwhelmingly for Joe Blackburn. The writer has carefully investigated the situation about Lewisport, where both the Senator and Representative reside, and finds the unanimity of sentiment there greater for Blackburn than in any other part of the county. Dr. Knox, Dr. Patterson, Dr. Madden—in fact it would require all these documents to name the open-taking advocates of Joe Blackburn. We will take Hon. Oscar Madden, a former member of the Legislature, for example. His opportunity for being posted is the best of any man we know, since he is county road and bridge commissioner and is constantly riding over the county. He tells us he does not believe there are twelve Democrats in Hancock county against Joe Blackburn; in fact he does not believe that four or five save Lewisport and that section of the county is practically a unit for him. Horace Patterson, one of the most active young Democrats in the county and a candidate for assistant clerk of the lower house, says that Madden's estimate is not overdrawn; and that if there are Payne advocates anywhere in his section they are not talking and no one has been of them.

In and about Haversville we find Judge Talbot, U. T. Duncan and dredge owners who could name who are outspoken for Blackburn. Mr. Duncan says he has made considerable inquiry and he has never found a man against Blackburn. In the central and back part of the county it is the same way—everybody for Blackburn.

And all this is easy to account for. Blackburn is known and has been here. He has met the people and knows many of them by their first names, and he never forgets them. His smile and manner are such that he could be desired in a public service and the people know this. Hancock people are for him and a vote against him from this section is a clear misrepresentation of the will of this people.

The most pleasant, safest and best remedy to use for Coughs, Colds, Croup, Whooping Cough, etc., is Kennedy's Laxative Honey and Tar. This remedy expels all cold from the system by acting as a cathartic of the bowels. Sold by All Druggists.

Doctors Could Not Help Her.

"I had kidney trouble for years," writes Mrs. Raymond Conner, of Shelton, Wash., "and the doctors could not help me. I tried Foley's Kidney Cure and it did not help. Unless they do this good health is impossible. For sale by A. R. Fisher.

WHEN A MALAY WEDS

SOME REMARKABLE FESTIVITIES DESCRIBED BY AN ENGLISH VISITOR.

Actual Wedding Day Preceded by Week of Nightly Feasting—After Ends With Ceremonial Bathing, Supposed to Avert Ill Luck.

A week of feasting generally precedes the actual wedding day, and in the case of a rajah two months of festivity may follow it. In Singapore, where cosmopolitanism has infected everything, the guests will be invited to feed one night on white man's fare and yet another on curry. Malay fashion, with their fingers; the bride will appear one night in an English gown, the next as a Chinese lady, and then gray robes, green robes, a golden robe, the bridegroom will be driven around town in a buggy. But up country in Malaya land proper, where these corruptions have hardly as yet crept in, there will be only the customary feasting, the making of finger rings, and the sales of the feet red with henna to perfume without magic import and borrowed from the Arabs, whose ladies consider fingers so colored more beautiful and always after the manner of dye; and then the bathing of the bridegroom and hands with rice paste, which forms an indispensable ingredient of the medicine man's pot and which is used on many occasions to avoid ill luck. The wedding day follows, preceding the sanding, which is the essential lay part of the wedding and the part I was to see, the legal and religious rite is performed, a kind of registry office business, where the bridegroom is seated before the minaret of Mohammadan and, in the absence of bride and women folk. The sword dance by the two Putans finished, the bridegroom was escorted away, and the people turned to the preparation of the dinner and to payment by invitation at the door.

Malay dinner at the rajah's house and the subsequent marriage ceremony or sanding. About 9 o'clock the wedding procession collected to escort the bridegroom, dressed in his best, and in the afternoon in a pilgrimage flowing robes, across to the house of his bride. After describing the ceremony of the wedding, the bridegroom, dressed in his holiday silks and escorted by his friends, went over to the bride's house, where he had to make a suitable offering to the mother-in-law. There he changed his attire for the shabby clothes that are always reserved for abductions and, with a towel over his shoulders, passed into the inner room, where the bride, who is now dressed in a white sari, is seated on the floor and covered with a shawl. Her mother, and every one except the naked victim, is laughing and talking. They peer things, sit with down turned faces, dumb, motionless, walking, sitting, standing, not of their own accord, but mechanically and under the compulsion of eager eyes.

Bowd after bowl of water is poured over the bridegroom's pair, strained through the fingers of the bride's mother, until the cup is emptied after it. The cucumbers shoots and cloth are soaked and dripping. Two women continue to drench the couple, but for the last time, and then the bridegroom is not even patted, though I had expected something from seeing my friend the rajah doff his official European kilt for something less elaborate than his silks of yesterday, was to lay his hands upon the victim, who having finished with the victims in chief, turned their attention to the audience and vented paroxysms of laughter. The couple, however, could only sit down with a few practical handfuls while they were practised arm and equipped with basins. However, fortune favoured us. Often handkerchiefs, saucers or paper-wrapped candies or rice were thrown at the bridegroom. The woman lead the bridegroom away for a fresh toilet. The groom dons his silks again and waits, no short time, in the passage till his spouse shall have had her toilet completed and the satisfaction of the ceremony.

Important Information Against Tobacco Trust.

A Louisville dispatch says:

"T. B. Littlepage, of the bureau of corporations, department of labor and commerce, after three weeks' investigation in this city of the legality of the American Tobacco Trust, says that he has secured important information not only here, but at different points in Kentucky. From here Mr. Littlepage will proceed to Lexington and then to Cincinnati. His special mission here is to inquire into the methods of the Dark Tobacco District Protective Association. He is also touring into conditions relative to Burris tobacco."

"The investigation involves civil and criminal proceedings against the tobacco trust and its officers, from President James B. Duke, of New York, to minor officers."

An Eastern syndicate is now endeavoring to buy the stock of the Louisville Tobacco Warehouse company. The large stockholders of the company formed a pool and announced that the option price was 100. A local brokerage firm is negotiating the deal.

"If the present investigation discloses that the syndicate in question is trying to buy the Louisville Tobacco Warehouse company plant to cut out the middleman's profit, engender bitterness among the growers and for the purpose of bringing about trade restraint, prosecution by the government would follow quickly and be rigidly conducted."

Accommodated Him.
Evansville, Ind., Dec. 5.—William Jones, of Cloverport, Ky., walked into the Evansville police station this afternoon, and, turning to Captain Fred Brennecke, said: "Officer, look me up; I think forty-eight hours behind bars will make me sober." Jones is locked up.

No Opium in Chamberlain's Cough Remedy.
There is not the least danger in taking Chamberlain's Cough Remedy to small children as it contains no opium or other harmful drug. It has an established reputation of more than thirty years as the most successful medicine in use for colds, cough and whooping-cough. It always cures and pleases to take. Children like it, said by Short & Haynes.

Thorough Organization.
President Dunn, of the Davies county Society of Equity, proposes to have thorough co-operation with the tobacco growers of the Green river district, and to that end has issued the following call:

"I hereby call a meeting of the green river district, composed of the counties Davies, McLean, Hancock, Ohio and Breckinridge for the purpose of organizing more thoroughly. The meeting will be held at the court house in Owensboro on December 20, at 10 o'clock a. m. The delegates to the said meeting will be

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could magnified to a size equal to its terror, it would appear more terrible than any prehistoric dragon. Temptation can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it a chance to spread itself and develop. When there is a deficiency of vital force, languor, listlessness, a low cheek, a hollow eye, when the appetite is poor and the skin is poor, it is time to guard against the germ. You can fortify the body against all germs by taking Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleans the system of disease, purifies and enriches the blood, puts the stomach and organs of digestion and assimilation in working condition so that the body may be in a fit training spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or other intoxicants.

"Your Golden Medical Discovery" is a sick man's friend," writes Geo. N. Turner, of Louisville, "and the members of the Brotherhood of Teamsters, 228 California Street, San Francisco, say that since my health has gradually failed, I lost my appetite, became nervous and irritable, I was depressed and unable to sleep. No medical help could give me relief. Dr. Pierce's Golden Medical Discovery has given me new life and increased vitality until I once again feel strong and full of energy. Eight bottles affected a complete cure of my disease."

Dr. Pierce's Pillbox—only one or two a day will regulate and cleanse and invigorate a foul, bad-stomach, torpid Liver, sluggish Bowels.

composed of all the members of the finance committee of the said country.

No Case of Pneumonia on Record.

We do not know of a single instance where a cough or cold resulted in pneumonia or consumption when Foley's Honey and Tar had been taken. It cures coughs and colds promptly, so do not take chances with some unknown preparation which may contain opiates, which cause constipation, a condition that retards recovery from a cold. Ask for Foley's Honey and Tar and refuse any substitute offered. For sale by A. R. Fisher.

Favorite at Lewisport.

Rev. B. M. Currie, of Cloverport, delivered a very interesting lecture last Friday night on temperance. He is quite a favorite in our town and community, since he advised Rev. J. B. Walker last January in one of the best revivals ever held here—Lewisport, Hancock Clarion.

King of All Cough Medicines.

Mr. E. G. Case, a mail carrier of Canton Center, Conn., who has been in the U. S. Service for about sixteen years, says: "We have tried many cough medicines for crop, but Chamberlain's Cough Remedy is king of all and one to be relied upon every time. We also find it the best remedy for coughs and colds, giving certain results and leaving no bad after effects." For sale by Short & Haynes.

Nichols to be Reappointed.

Deputy United States Marshal Nichols has been assured by the newly appointed marshal that he will be appointed on account of his good work.

This is anything but good news to

the many of the breakers of Uncle Sam's laws. Deputy Marshal Nichols has since his appointment been a valuable assistance to the marshal's office.

He has been a terror to those

engaged in unlawful business and all bad charac-

ters, seldom going after one that he

has not brought back. Mr. Nichols is

now enjoying a vacation at his old Hawesville home—Owensboro In-

quirer.

Hawesville Literacy Decreasing.

The census bureau has issued a bulletin on illiteracy which shows that among the children of Kentucky ten to fourteen years of age, illiteracy is decreasing in a rather remarkable manner. In 1890 there were in Kentucky 116.7 illiterates to every 1,000 native white children ten to fourteen years of age, while in 1890 the illiteracy among the children had decreased to 74.7, or every 1,000 between the ages mentioned, which speaks well for the work done by the public schools of Kentucky.

In Indiana the illiteracy among children, according to the bulletin, decreased from 10.3 to 4.4 per 1,000. According to the census used of the term, an illiterate is a person who is unable to write either in English or in any other language. Inability to read is not considered a test of illiteracy, although in most cases a person who cannot write is also unable to read.

Tax on Whisky Increased \$2.

Frankfort, Ky., Dec. 6.—The state board of valuation and assessments fixed the assessment on whisky at the current year at \$10 per barrel. The assessment last year was \$8 a barrel, and the difference will be great if the tax is paid on all the thousands of barrels of whisky which are now stored in this state. The tax is paid by the owners as the whisky is withdrawn from the warehouses. The board has several times before this put the amount at \$10 a barrel on the first assessment, but has finally put it back to \$8 after a hearing.

WILL WIN IN FOURTH DISTRICT.

Sentiment of Unterrified Democracy With Blackburn, Says Smith.

Washington, Dec. 7.—Hon. David H. Smith, of Kentucky, who is one of the most recent of congressional arrivals at the Riggs House, is so far as good as gold that rather than risk his distinction of being sent to the longest man in the house of representatives. But Mr. Smith makes up in ability what he lacks in unctuousness, and his own people think well enough of him to keep sending him back to Washington after each term.

In conversation with a Post reporter he said: "The most absorbing topic in my state is the senatorial race. At this juncture nobody can with safety predict the winner. The anti-Blackburn men say they have him beaten, but their claims may be premature. The senator has always shown marvelous running powers in a close finish, and it would be no surprise to see him win in the stretch. In my district, which has the heaviest legislative representation of any, he will get a majority of the votes. It is only fair to say also that Joe Blackburn has always had a warm place in the affection of the 'untirred Democracy' of Kentucky and the day has not yet passed when sentiment has ceased to be a factor in our elections."

BABY'S ECZEMA

Top of Head Covered with Scales Which Peeled off Taking Hair with Them.

CURED BY CUTICURA

Now Six Years Old with Thick Hair and Clean Scalp. Cure Permanent.

"My baby was six weeks old when the top of her head became covered with thick scales, which would peal and come off, taking the hair with it. It would soon become so bad it had to be shaved. The doctor said it was Eczema, and prescribed an ointment, which did no good. I then tried Cuticura Soap and Ointment. I washed her head in warm water and Cuticura Soap and gently combed the scales off. Then I combed back her hair, drew out fine and thick. She is now a year and a half old, and has no trace of Eczema."
